KERRWIL

Sponsored by:
Kerrwil Publications Limited 20 Holly Street, Suite 201
Toronto, Ontario Canada M4S 2E6 Tel: (416) 487-3461

This interesting and informative programme reviews all aspects of electric vehicle development in education, industry and government in Canada, U.S.A. and throughout the world.

WARREN HARHAY, *President E.V.A. Inc.*, who will report on the position of the entrepreneurs in this new industry.

HOWARD PERRY, *Varta Batteries Ltd.*, will update recent developments in electric batteries and indicate Varta's involvement.

LLOYD SECORD *Dilworth, Secord, Meagher & Associates - Toronto*, will speak on the management of the Canadian electrical vehicle research programme of which he is the co-ordinator.

JACK MORGAN, *Dept. of Transport*, who is heading up the co-ordination of D.O.T., D.E.M. & R. and Post Office participation in Canada's Research Programme.

VERNON A. RYDBECK, *General Electric Company, Schenectady, N.Y.*, will indicate business opportunities that can be developed in the components market through the greater acceptance of the electric vehicle.

RENTON PATTERSON, *High School Instructor*, will outline actions he has undertaken with his students who, under his direction, have converted an internal combustion car to an electric vehicle.

JOHN WEIGMANN, *Booz • Allen & Hamilton Inc. Bethesda, Maryland*, will review the developments surrounding the private sector demonstrations of the huge United States electrical vehicle research programme which is under Booz • Allen's jurisdiction.

PROF. N. ELEY, *Director of Engineering, U.B.C.*, whose students have participated in S.C.O.R.E., will detail the status of electric vehicle and electric battery activities in Canadian universities.

FRED G. JOHNSON, *Department of Industry, Trade & Commerce, Ottawa*, will review EV developments around the world and detail Canada's position.

The second Electrical Vehicle Seminar is being held in co-operation with the Energy LifeStyle Show, at which a number of electric vehicles will be on display. Seminar attendees receive complimentary registration for the Energy LifeStyle Show.

NOTE:

The initial meeting of the Canadian Electrical Vehicle Association attracted about 200 interested people in Ottawa on July 23rd, 1979. A steering committee was formed and will give a brief report at the seminar regarding membership, objectives, etc.

*Check below if you want information on joining C.E.V.A.
