

CANADIAN ELECTRIC VEHICLE ASSOCIATION

OTTAWA CHAPTER

There will be a meeting on Monday, November 5th at 7:00 p.m. This will be held in Room 3001 of the N.R.C. Building at Sussex Drive.

The meeting will open with a short business session. This will be the formative meeting for the Ottawa Chapter, which will be the first chapter established under CEVA sponsorship. We hope to elect an executive committee and clarify the goals of the Chapter.

The highlight of the meeting will be a well-illustrated talk by Renton Patterson of Pembroke. He is a pioneer in the field of EV conversions, having already completed several. His talk will cover details of these conversions, problems encountered, performance data, and so on. We look forward to a highly factual discussion.

Negotiations are also under way for a second speaker. This would be an expert from a company which services a very large number of golf carts and other EV's. Further details not available at press time.
